Description Of Work:	Elevated Garage using 6" blocks, anchored to sill, poured a new garage floor and replaced outside pad + sidewalk.	Punctuality A
Member Comments:	<p>Best professional work I have had done on my house! I highly recommend this gentleman. Badger was prompt to the work site, gave a good estimate, laid out all that would take place and the timeframe. He coordinated the concrete work with Hardstone Concrete, St Paul (George). He stayed on top of the process and kept me in the loop during the entire project. It is amazing how he does this and the end result is perfect. I planned to do this for 18 years and did I tap into the perfect guy for the job!</p> <p>I also highly recommend Hardstone Concrete in St Paul, MN. George (owner) came onsite and scoped out the job. He stood by his word and his work. A very hard working guy with ethics....something you don't see a lot of nowadays. His crew was timely and stayed on the job until complete. I highly recommend both businesses and if you need a building lifted....this is the perfect team to have.</p>	Professionalism A
